WHEREAS the licensees have requested the Secretary of State to furnish them a supply of electrical energy in bulk for the purpose of distribution in the area fixed by the Karur Municipal Electric Supply Licence, 1933, hereinafter called the licence and the Secretary of State has agreed to afford such supply to the licensees on the terms and conditions hereinafter contained;

NOW IT IS HEREBY DECLARED AND AGREED AS FOLLOWS :—

1. Subject to the provisions hereinafter contained and during the continuance of this agreement the Secretary of State shall supply and the licensees shall take from the Secretary of State on and after 1933 all such electrical energy as the licensees shall require for the purpose of the supply by the licensees under the powers contained in the said licence or for any other purpose for which the licensees may require such energy.

2. The energy supplied to the licensees by the Secretary of State shall be on the three phase 50 cycle alternating current system at a normal pressure of 11,000 volts. The frequency and pressure of the electrical energy at the point of supply to the feeders of the licensees at the Receiving Station of the Secretary of State at Karur and other points of supply shall be subject to the fluctuations that are ordinary, usual and incidental to the generation and transmission of electrical energy but such fluctuations shall not except owing to extraordinary reasons beyond the control of the Secretary of State be more than five per cent on the frequency and twelve and a half per cent on the pressure. The licensees agree to specify that all their 11,000 volts step down transformers shall be delta connected on the high tension side and Y connected on the low tension side.

3. Save as provided herein the supply shall be available continuously except in case of look-out or strike of the employees of the Secretary of State break-down of machinery or plant force majeure or any other cause over which the Secretary of State has no control in any of which cases the Secretary of State shall not be responsible for any discontinuance of the energy but he shall restore the supply as soon as he reasonably can.

4. The points of supply shall be as follows :—

(a) From the Receiving Station of the Secretary of State at Karur at 11,000 volts.

(b) From any point on the Secretary of State's 11,000 volts lines in the licensed area at the discretion of the Secretary of State.

5. All 11,000 volts services or feeders taken directly from the Secretary of State's lines or busbars shall be suitably protected by the licensees by high tension fuses or automatic oil circuit breakers. The fuses and circuit breakers shall be capable of successfully rupturing the maximum short circuit energy likely to occur at the point of installation. The relay settings and fuse capacities will be specified by the Chief Engineer for Electricity or his representative.

6. All transformers, switchgear and other electrical equipment directly connected to the feeders or lines of the Secretary of State shall be of suitable design and be maintained to the reasonable satisfaction of the Chief Engineer for Electricity or his representative.

7. Squirrel cage motors exceeding certain capacities will not be permitted on the Secretary of State's feeders as follows :—

Capacity of feeder K.V.A. 4% per cent drop.	Maximum h.p. of motor.
Up to 250	10
" 500	20
" 1,000	50
" 1,500	75
" 2,000 and over	100

The starting current of each squirrel cage motor shall not exceed 200 per cent normal full load current.

The starting of slip ring or other similar motors shall be by means of suitable appliances so designed that the starting current at any time does not exceed 150 per cent normal full load current for capacities up to 50 horse power and 125 per cent for all sizes over 50 horse power.

8. For the purpose of registering the electrical energy taken by the licensees under this agreement there shall be provided at the point of supply defined in clause 4 (a) one 11,000 volt metering set on each feeder of the licensees which shall be the property of and be kept in repair and calibrated by the Secretary of State. Each meter set shall consist of the necessary instrument transformers one polyphase integrating wattmeter with one kilo-volt ampere demand meter. Alternatively the Secretary of State may install a polyphase integrating wattmeter with demand attachment and determine the power factor by mutual agreement.

9. The licensees may at their own expense install check meters on their feeders at the Receiving Station of the Secretary of State at Karur or any other point of supply.

10. The meters shall be properly sealed on behalf of both parties and shall not be interfered with by either party except in the presence of the other party or its representative duly authorised in that behalf.

11. The readings of the said meters shall be taken by the accredited representatives of the licensees and the Secretary of State at or as near noon as practicable on the last day each Calendar month and the readings so taken shall be binding and conclusive between the licensees and the Secretary of State as to the amount of electrical energy supplied to the licensees. In the event of any meter being found defective and a check meter not having been installed, the power consumed during the period for which the meter was defective shall be determined by taking the daily average consumption for the previous three months.

12. The licensees shall from time to time and at all times on previous notice thereto allow the employees of the Secretary of State in the Electricity Department to enter the transformer and sub-stations of the licensees at Karur or any other point of supply for all or any of the purposes connected with the supply of electrical energy to the licensees under this agreement.

13. Once in every year the meters shall be recalibrated and standardized by means of standard instruments by the Secretary of State in the presence of the Licensees' Electrical Engineer or their representative.

14. The licensees shall be entitled on application to the Secretary of State or his authorized representative in this behalf to have a special test carried out of the meters at any time and the expenses of such test shall be borne by the Secretary of State or the licensees according as the meters are found defective or correct as a result of such a test. Such meters shall be deemed to be correct if the limits of error do not exceed those laid down in the Indian Electricity Rules, 1922, or any other statutory modification thereof for the time being in force.

15. For the purpose of this agreement the maximum demand at each point of supply to the licensees in each month shall be the largest total amount of kilovolt amperes delivered to the feeders of the licensees at the point of supply during any consecutive thirty minutes in the month.

16. Maximum demand charges for any month and at any point of supply will be based on the average monthly maximum KVA demand for the twelve months ending with the month in question always provided that this average be not less than the average demand chargeable for any previous month in which case the higher figure will be taken as the basis for payment. For the first year's service the demand charge for any month will be based on the average of the monthly demands for all the months ending with the month in question with the same proviso as aforementioned. (The demand charge for the first month of operation will correspond to the maximum demand for that month.)

17. For each calendar month during the term of this agreement the licensees shall pay to the Secretary of State a demand charge at the rate of Rs. 3-12-0 per kilovolt ampere up to 500 KVA, Rs 3-4-0 per KVA when the maximum demand exceeds 500 KVA, Rs. 3 per KVA when the maximum demand exceeds 1,000 KVA, as determined in the preceding clause. The licensees shall pay this charge as a minimum without prejudice to the conditions in clause 20.

18. In addition to a demand charge to be paid each month as provided in clause 17, the licensees shall pay a service charge per K.W.H. of all electrical energy consumed by the licensees during the month :—

Class.	Total monthly consumption K.W.H.	Rate per K.W.H. annas.
I	Up to 25,000	0-60
II	Exceeding 25,000 and up to 50,000.	0-55
III	Exceeding 50,000 and up to 75,000.	0-50
IV	Exceeding 75,000 and up to 100,000.	0-45
V	Exceeding 100,000 and up to 200,000.	0-425
VI	Exceeding 200,000 and up to 300,000.	0-40

All consumption in excess of 300,000 units per month will be charged at 0·375 annas per unit.

If at any time during the term of this agreement the Government should reduce the rates for bulk consumers coming under the same class as the licensees than the licensees shall have the benefit of the reduced rates in place of those specified in this and in the previous clause.

Provided (a) that the licensees shall, if so required by the Secretary of State submit to the Secretary of State for his approval proposals for a reduction of the rates charged to its consumers within such time as may be fixed by the Secretary of State. The Secretary of State shall approve the said proposals with or without modifications and the rates thus approved shall take effect from such date as the Secretary of State may fix.

(b) that if the licensees fail to submit the proposals called for under sub-clause (a) within the time fixed, the Secretary of State shall fix such rates for supply as he

may think reasonable, but so that the benefit accruing from such rates to the consumers shall not exceed the benefit accruing to the licensees from the more favourable Government tariff for power.

19. A rebate of 20 per cent will be allowed on all power supplied by the Secretary of State to the licensees at the Receiving Station at Karur or at any other point of supply during the period from July 1st to September 30th both days inclusive, in excess of the maximum monthly consumption recorded during the previous nine months.

20. If at any time the licensees are prevented from receiving using distributing or selling the electrical energy to be supplied under this agreement either in whole or in part owing to strikes, riots, insurrections, commands of a civil or military authority, fire, explosives, act of God or any other cause reasonably beyond control or if the Secretary of State is prevented from or unable to supply such electrical energy owing to all or any of the causes mentioned above then the minimum charge payable by the licensees shall be reduced in proportion to the ability of the licensees to take or the Secretary of State to supply such power.

21. The Secretary of State shall within fifteen days after the expiration of each calendar month deliver to the licensees an account stating the number of units supplied to the licensees by the Secretary of State in accordance with the readings of the said meters and the amount payable therefor as also the amount payable in respect of the maximum demand charge and other charges if any payable by the licensees to the Secretary of State and the licensees shall pay the sums within thirty days from the delivery of such account.

22. If the payments herein provided for or any part thereof shall be unpaid for the space of thirty days next after any of the days whereon the same ought to have been paid as aforesaid or if the licensees shall not in all things perform and observe the covenants and conditions herein contained and on the part of the licensees to be observed and performed then and in such case and in addition to any other right or power possessed by the Secretary of State it shall be lawful for the Secretary of State at any time thereafter notwithstanding that the Secretary of State may not have taken advantage of any previous breach or default or event of a like nature at his choice to suspend all further supply of electrical energy under this agreement or to forthwith by notice in writing determine this agreement. Such suspension of the supply of electrical energy shall not relieve the licensees of their liability to pay the minimum charge provided for in clause 17 nor shall such determination affect any right claim demand or power which may have accrued to the Secretary of State or be enforceable by virtue of these presents.

23. This agreement shall subject as hereinbefore provided be and remain in force for ten years from the date hereof. If the licensees shall desire to renew this agreement for a further term of ten years from the expiration of the ten years hereby created and of such their desire shall give the Secretary of State at least twelve months' previous notice in writing on or before the date of expiration of the agreement and shall have duly performed and observed all the covenants and conditions herein contained then and in such case the Secretary of State shall grant to the licensees a new agreement for a further term of ten years on the same terms as this agreement and containing the same clauses and conditions in so far as they shall apply with the exception of the present clause and clause 19.

24. The licensees shall adopt the following tariff and shall not change any of the rates without the approval of the Secretary of State in writing.

On receipt of the said proposals, the Secretary of State shall approve them with or without modifications, as he may think expedient and shall fix the date from which the revised rates shall come into force. The rates thus approved shall be adopted by the licensees from that date.

(b) If the licensees fail to submit the proposals for a general reduction in rates as required by sub-clause (i) the Secretary of State shall fix such rates for supply as he may think reasonable and shall specify the date from which they shall come into force. The licensees shall charge only the rates so fixed to the consumers from that date.

25. When after three years of operation or any date thereafter it can be proved that the application of standard rates set out in clause 24 results in a profit to the licensees of an amount less than the fixed charges (which shall include all interest charges and sinking fund contributions on the capital invested and loans contracted) then discounts on the rates specified in clauses 17 and 18 up to a maximum of ten per cent will be allowed by the Secretary of State always provided that the electrical undertaking has been managed in a reasonably efficient manner and no charge of extravagance, free distribution of power, unfair rebates and remissions, or uneconomical expenditure can be proved. Such discounts when made will be decreased or discontinued entirely when the profits of the licensees, as determined in clause 27, exceed the fixed charges on the invested capital and loans.

The remaining fifty per cent on the excess may be devoted by the licensees to such other purposes as may benefit the Municipality.

28. Operation and maintenance expenses include :—

29. At least 10 per cent of the depreciation or sinking funds must be invested in Government or Trustee securities and not drawn upon, without the permission of the Government until the fund has accumulated to the original amount provided for.

30. When the return on the capital invested has averaged less than the amount required to meet the fixed charges annually over a period of six years, returns in excess of the amount of the fixed charges will be sanctioned if desired, for so long as may be required to make up the accumulated deficits in the fixed charges.

31. The licensees will be required to extend their low tension distribution lines to any point within the licensed area when a guaranteed annual consumption of energy equal to or greater than an average of 5,000 K.W.H. per mile can be obtained from the prospective consumers.

32. Any dispute difference arising between the licensees and the Secretary of State or their respective Electrical Engineers as to the supply of electrical energy hereunder or the premises thereof or as to rates of supply or as to the interpretation of this agreement or the right of the Secretary of State or the licensees respectively to determine the same or any other question matter or thing arising hereunder such difference shall be referred to a single arbitrator to be appointed on the application of either party by the Honourable the Chief Justice for the time being of Madras if willing to act or if he shall be unwilling to act then some other person who shall be mutually agreed upon by both parties. The Arbitrator's decision thereon shall be final and the provisions of the Indian Arbitration Act of 1899 or of any other statutory modifications thereof for the time being in force shall apply to any such reference.

33. The rates in this contract are based upon a 1s. 6d. Rupee but should the gold exchange value of the rupee at the date of this agreement depreciate by more than 10 per cent during the life of this contract then all rates and amounts mentioned in this agreement are subject to modification. The proportionate increase, if any, would not exceed the proportionate decrease in the gold exchange value of the rupee at the date of this agreement.

34. If after the distribution scheme has begun to operate, the Council finds by experience that any of the provisions in this agreement works hard on it the Government shall be prepared to consider the question of removing such hardship.

2. Tenders must be submitted in sealed covers and should be addressed to the Executive Engineer, Kistna Central Division, the name of the tenderer and address and the name of the work being noted on the cover.

If the tender is made by an individual, it shall be signed with his full name and his address shall be given. If it is made by a firm, it shall be signed with the co-partnership name by a member of the firm, who shall also sign his own name, and the name and address of each member of the firm shall be given. If the tender is made by a corporation, it shall be signed by a duly authorized officer who shall produce with his tender, satisfactory evidence of his authorization. Such tendering corporation may be required, before the contract is executed, to furnish evidence of its corporate existence.

3. Each tenderer must pay, as earnest money, a sum of rupees two hundred into the branch of the Imperial Bank of India or into the Government Treasury or Sub-Treasury within the jurisdiction of the Executive Engineer concerned in the credit of Revenue Deposits on behalf of the Executive Engineer of the Kistna Central Division and enclose with his tender the chalan endorsed accordingly. This earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender, whichever is earlier. This refund will be authorized by the Executive Engineer by suitable endorsement on the chalan. The earnest money will not be received in cash or currency notes by the Public Works Department officers.

The earnest money will be retained in the case of the successful tenderer, and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender, make a security deposit of Rs. 200 (rupees two hundred only) in one of the forms prescribed in the M.P.W.A. Code and sign an agreement in the proper departmental form for the due fulfilment of the contract. This security deposit together with the earnest money will be retained as security for the due fulfilment of the contract. If a cash security is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear any interest. Failure to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money.

5. The tenderer shall examine closely the Madras Detailed Standard Specifications and sign the Divisional Office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender unit rates. He shall also carefully study the agreement and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as supplemental specifications regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m., on office days, in the office of the Executive Engineer, Kistna Central Division.

6. The tenderer's attention is directed to the requirements for materials and workmanship in the "Supplemental Specification." The tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the quarries, and satisfy himself about the quality and availability of materials. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in this tender notice or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply is begun.

The Government will not, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

7. The tenderer's particular attention is drawn to the sections and clauses in the agreement dealing with—

(1) conditions of working in the quarry;
(2) measurements of stacks of materials, inclusive of heids in general;
(3) accidents;
(4) delays; and
(5) particulars of payment.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. The tenderer should quote specific rates for each item in the schedule, and the rates should be in rupees, annas and in sums of three pies. The rates should be written both in words and figures and the units in words. The schedule accompanying the tender shall be written legibly and shall be free from erasures, overwritings or conversions of figures. Corrections, where unavoidable, should be made by crossing out, initialling, dating and rewriting.

10 Tenders offering a percentage deduction from or increase on the schedule rates and those not submitted in proper form or in due time will be rejected. Rates or lumpsum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of the contract, specifications, accompanying same will be recognised; and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorising others to receive payment on the contractor's behalf.

13. If further information is required, the Executive Engineer, Kistna Central Division will furnish such, but it must be clearly understood that tenders must be received in order and according to instructions.
